Code 42299

A booklet expressing advocacy towards the legalization of tattooing in South Korea, the only country in the world to criminalize the act of tattooing without a medical license, through three different perspectives

4"x7"

01

Illnesses like cancer and Alzheimer's are closely associated with distortions of the senses, including smell.

Up to 75% of smell disorders go unnoticed and undiagnosed.

Learn more about smell related disorders with Monell Chemical Senses Center.

ether (aithēr) × M

ether (aithēr) x Monell

A series of wild posting posters for a collaborative campaign between an imaginary high end fragrance brand and a research center focusing on human experience in relation to scent illusions related to diseases to raise awareness about such illnesses
